

Payments under lock 'n' key

Take card payments securely online with Connect.

Connect is an online payment page hosted through our Gateway servers. We use it to safely capture customer card data during checkout. Link your site to Connect and we'll become your silent partner in online payments.

You can tinker and tailor the payment page so it looks just how you want. Use your brand colours. Add your logo. Make it sound just like you. Your customers won't ever know that they'd gone to a different site, or that we'd been involved (unless you tell them).

It's a win-win for you. Secure payments, anytime, anywhere – all under your name.

How it all works

Pick from three payment levels

PayOnly, PayPlus, and FullPay – you choose.

Your webpage or ours?

Your customer is switched back to your site once their payment has gone through. Or you could even choose to show our payments page directly on your website through an iFrame. Think of it as a little window that lets you show customers content from another webpage.

A payment link to send to customers

As well as using our payments page as part of your online journey you can also send it's URL directly to your customers to get paid. Pop the link in an email, SMS, create a QR code or even attach to a carrier pigeon. However you send it, it'll make payments quick and secure for your customers.

The core details

Safe and secure

Take the worry out of online transactions. Our payment page is hosted within our PCI DSS Level 1 certified data centre which means is secure. Connect also supports a range of fraud prevention tools, including 3D Secure, Amex Safekey, transaction blocking and AVS/Security Code.

Rapid repeat purchases

Connect uses tokenisation - a fancy term that means we replace any sensitive data with reference 'tokens' instead. It means that your customers' data is not accessible when they come back to purchase again. But, we'll still remember them so they can make repeat purchases even quicker.

Faster payments with PayPal

Your customers can pay faster through PayPal. And you'll be able to see each and every PayPal transaction through your Clover Web Terminal.

To find out more go to uk.clover.com or give us a call on **0330 123 1241**.*

*Telephone calls may be recorded for security purposes and monitored as part of our quality control process. Lines open 9:00am-5:00pm, Monday to Friday.
